

The project has been very fun and I liked the interviews a lot. I also think that it was very nice to see what other people in other age groups think of the sport facilities in the area. I think that we worked together well and that we communicated well in our group chat about who had to do what. Roel did a very good job with the dividing of the tasks and everyone had the same amount of work to do. we finished everything very quickly. And Roel reminded us to work on the project all the time which I like because then I don't forget to make something.

We had some problems in the group because one person in the group didn't cooperate with us so we needed some more time to finish the interviews. The interviews worked out very well and there were lots of difference in opinions that people gave to make an interesting conclusion.
